

As a person en-rolled in the Indiana Telephone Privacy I am writing to you to ask that you please not proceed with your attempt to do away with my privacy. I, as well as many others, enjoy the peace and quiet my home provides. By allowing businesses to call we will no longer be able to enjoy our peace and quiet. As a nurse I am not allowed, by law, to share personnal information about patients. Maybe we should do away with that law too, what is the difference?

Respectfully Submitted,
Marissa L. Williams
